

## Network dinner with our former State Secretary for Foreign Affairs Mark Harbers and Euro Parliamentarian Caroline Nagtegaal!

The International Network of Liberal women and the Liberal Women Network enjoyed a well-attended dinner on September 2<sup>nd</sup>, 2019 in Rotterdam. Guest speakers were VVD member of Parliament Mark Harbers, he has just returned as a representative

to Parliament after resigning from his post as Secretary of State for Foreign Affairs and ALDE Member of the European Parliament, Caroline Nagtegaal. The ladies were vastly interested in the present works in the European parliament with the upcoming new EU Commission and the difficult position of Great Britain. What is going to happen concerning Brexit?

Caroline Nagtegaal, who has the portfolios, trade, transport and economy, gave us a good insight of the various decisions that must be made in the very near future concerning the EU and its members. In the meantime, we still don't know what

the British will decide on the Brexit issue.

That was the link to Dutch member of Parliament, Mark Harbers who has taken up a new portfolio on Climate Change. That

will involve not only Dutch laws and actions but also European coordination and technical development. This will be an interesting challenge for both members of the two Parliaments. They are both eager to face and pick up these new challenges!
